# Effective Decision Making // Leadership

# 

# **OVERVIEW**

This highly engaging one-day program is designed for both individual contributors and managers who are seeking to improve their ability to make decisions.

# By the end of this workshop participants will be able to:

- Describe the four-step decision making model
- Apply techniques to gain clarity on the decision definition
- Analyze the value of private vs public data collection
- Assess the different ways to gather insight

- Create a stakeholder map for an upcoming decision
- Create the appropriate communication strategy based upon the stakeholder map
- Recognize the common biases that inhibit their ability to resolve issues
- Design a criteria matrix to assist in evaluation
